

LabShield

Optimize the labs. Unlock their potential.

LabShield is a **complete laboratory safety solution** for schools. Designed with teachers and students in mind, it blends compliance, training, and innovation into one program. Through comprehensive **safety audits, streamlined equipment systems, and modern teacher training**, LabShield ensures that every lab is well-prepared, well-managed, and inspiring for students. Teachers gain confidence, administrators gain peace of mind, and students gain the freedom to explore science in a safe, structured, and engaging environment.

LabShield also partners with Canada's leading **laboratory distributors and waste disposal companies**, giving schools direct access to high-quality safety equipment, reliable restocking channels, and environmentally responsible chemical disposal. These partnerships ensure that schools not only implement best practices but also sustain them over the long term.

To maximize efficiency, LabShield uses **secure online databases that track equipment inventory**, monitor usage trends, and flag issues such as corrosion, underuse, or overuse. This proactive system extends the lifespan of valuable lab resources, prevents costly surprises, and ensures that students always have access to safe, functional tools. With flexible packages and scalable solutions, LabShield adapts to the needs of individual schools or entire divisions, making it a lasting investment in safer, smarter science education.

LabShield

Package	Single Lab	Multi-Lab	Division-Wide Optimization
Format	On-site audit and optimization of a single lab	Standardization applied across 3+ labs within a school/division	Comprehensive division plan across all labs and schools
Teacher Training	½-day training (two trainees)	Unlimited teacher access (½-day overview per site)	Division-wide lab leader/teacher training integrated
Teacher Coverage	1 lab leader/teacher trained	Unlimited teachers across participating labs	Unlimited division coverage
Focus	Safety audit, compliance check, signage, and protocol templates	Consistent safety standards across multiple labs	Scalable optimization with leadership training + monitoring
Outcome	One lab fully compliant and standardized	Division consistency across labs, reduced risk	Sustainable division-wide safety culture and compliance
Investment	\$2,000 per lab	\$1,250 per lab	Custom Quote
